 NW corner with a delta angle of 1-07 left.

2002 No resurvey information was found on this corner in the Benton County  
 Surveyor's records.

2009 The Benton County Surveyor's Office found down fences north and south and an  
 east-west centerline. The overall mile measures within 0.2 feet of the 1939  
 distance. Since the overall mile fits the 1939 information so well, it was  
 positioned proportionally east-west and using the record delta angle fitting the  
 current east-west centerline within 3 feet.. A 1/2" iron pipe capped 19552 was set  
 to mark the corner position.
