2018 The Benton County Surveyor's Office found the CIM, verified the coordinate position; and excavated a 11-foot x 11-foot hole to original soil. Down 3 feet an 8 inch x 10 inch by 17 inch granite stone was found planted upright. The stone is believed to be the stone set from original BT in 1915. The stone was found under the CIM set by Lunser in 1999. A 1/2 inch x 15 inch iron pipe capped 19552 was set to mark the obliterated corner position.

STATEMENT OF EVIDENCE:

County Surveyor's book in the office of the Benton County Highway Dept indicate a stone monument was placed at this corner.

A search of the area failed to uncover the marker. Occupation lines consist of centerlines of roads south, north and east.

After comparing measured distances to those of the G.L.O. I consider this corner to be obliterated with the intersection of the road centerlines servings as its accessory.
