

**Statement of Evidence**

**K243**

East Quarter Corner of Section 24, Township 36 North, Range 29 West, St. George Township, 4<sup>th</sup> Principal Meridian, Benton County, Minnesota.

1849 Original US General Land Office survey established by corner marked by a wood post with bearing trees recorded as:

|         |        |           |
|---------|--------|-----------|
| 14" Elm | S 62 E | 318 links |
| 6" Elm  | N 38 E | 475 links |

Line trees are noted as a 6" Tamarack North 23.89 chains and a 6" Elm South 6.30 chains.

1915 County Surveyor's Record Book 1, page 131, notes a stake at the corner and in Record Book 1, page 45, and Record Book A, Map No. 11 shows that J.P. Soderstrum did a survey of Section 19. Survey shows he set an oak stake from government BT. He measured 40.52 chains (2674.32 feet) to NW corner and 42.44 chains (2801.04 feet) to SW corner of Section 19.

2002 Westwood Professional Services, Inc. searched corner area at intersection of road north-south and brush line east. No monument was found. We measured 5479.58 feet between section corners, which compared well with Soderstrum's survey. We considered the corner to be obliterated based on the Soderstrum survey and established corner using the center of north-south road and proportionate distances to Soderstrum's survey between the NE and SE corners of Section 24. On December 4, 2002 set an iron pipe capped #12684 at with a distance of 2676.38 feet to the NE Cor Sec 24 (a cast iron monument) and a distance of 2803.24 feet to the SE Cor Sec 24 (spike). Corner is 10.60 feet west of a straight line between section corners. Certificate of Location filed as Document No. 293715.
