

Statement of Evidence:

North Quarter Corner of Section 25, Township 37 North, Range 28 West, Maywood Township, 4th Principal Meridian, Benton County, Minnesota.

1855 Original US General Land Office survey set a wood post at this location and bearing trees were recorded.

1902 County Surveyor's Record Book 2, page 434, and Record Book A, Map No. 30, shows a survey of Section 25 by John Whilt. Survey shows corner midway between section corners with a distance of 78.36 chains (5171.76 feet) between section corners.

2004 Measured 5200.26 feet between section corners and midpoint fits within 2 feet of fence line running north. Found no evidence of a corner monument in center of east-west road. Distance between section corners fits within tolerance of other distances compared to Whilt's, which usually have been about 15 feet different per 1/2 mile. Since Whilt did not find the corner and he set the corner lost, corner should be set at the lost position. The lost position agrees with occupation, fitting the center of the road and fence line north.

County Coordinates to lost position:
