Missing Persons

This includes the National Crime Information Center (NCIC), the Minnesota Justice Information Services (MNJIS), the Minnesota Missing and Unidentified Persons Clearinghouse and the Minnesota Crime Alert Network.

316.2 POLICY

The Benton County Sheriff's Office does not consider any report of a missing person to be routine and assumes that the missing person is in need of immediate assistance until an investigation reveals otherwise. Priority shall be given to missing person cases over property-related cases. Members will initiate an investigation into all reports of missing persons, regardless of the length of time the person has been missing.

316.3 REQUIRED FORMS AND BIOLOGICAL SAMPLE COLLECTION KITS

The Detective Section supervisor shall ensure the following forms and kits are developed and available:

- Missing person report form
- Missing person investigation checklist that provides investigation guidelines and resources that could be helpful in the early hours of a missing person investigation
- Missing person school notification form
- Medical records release form
- Biological sample collection kits

316.4 ACCEPTANCE OF REPORTS

Any member encountering a person who wishes to report a missing person or runaway shall render assistance without delay. This can be accomplished by accepting the report via telephone or in person and initiating the investigation. Those members who do not take such reports or who are unable to give immediate assistance shall promptly dispatch or alert a member who can take the report.

A report shall be accepted in all cases and regardless of where the person was last seen, where the person resides or any question of jurisdiction (Minn. Stat. § 299C.53, Subd.1(a)).

316.5 INITIAL INVESTIGATION

Deputies or other employees conducting the initial investigation of a missing person should take the following investigative actions as applicable:

- (a) Respond to a dispatched call as soon as practicable. Obtain a detailed description of the missing person, as well as a description of any related vehicle and/or abductor. Access all available sources of identifying information on the missing person such

as DVS records, DNR records, criminal history files, local law enforcement records, and the like. Deputies shall document the information databases searched and the personal information retrieved from these sources.

- (b) Interview the reporting person and any witnesses to determine whether the person qualifies as a missing person and, if so, whether the person may be endangered (Minn. Stat. § 299C.53, Subd. 1 (b)). Interviews should be conducted separately, if practicable.
- (c) In all missing person cases, a Missing Person Report Form should be completed as promptly as possible and the reporting party shall be asked to sign the report form. A signature is not required on the Missing Person Report Form for victims missing as a result of a catastrophe.
- (d) Consult with the Bureau of Criminal Apprehension (BCA) if the person is determined to be an endangered missing person (Minn. Stat. § 299C.53, Subd. 1(b)).
- (e) Canvass the last known area where the missing person was seen, if known. A search of the location where the incident took place, if known, should also be conducted and a search warrant obtained if necessary.
- (f) Determine when, where and by whom the missing person was last seen. Interview the person who last had contact with the missing person.
- (g) Notify a supervisor immediately if there is evidence that a missing person is either endangered or may qualify for a public alert, or both (see the Public Alerts Policy).
- (h) Broadcast a "Be on the Look-Out" (BOLO) bulletin if the person is under 18 years of age or there is evidence that the missing person is endangered. The BOLO should be broadcast as soon as practicable but in no event more than one hour after determining the missing person is under 18 or may be endangered.
- (i) Relay known details to all on-duty personnel as well as other local or surrounding law enforcement agencies using local and state databases.
- (j) Ensure that entries are made into the appropriate missing person networks . Endangered missing persons, regardless of age, are to be entered into the system immediately, but no longer than two hours, from the reception of the minimum data required for entry into NCIC. The two hour clock shall begin at the time the minimum data required is received. The time of entry must be documented. System entry is subject to the following conditions:
 - 1. Juveniles, up to 17 years of age, are to be entered into the system immediately, not to exceed two hours, upon receiving the minimum data required for entry into NCIC. The two hour clock shall begin at the time the minimum data required is received. The time of entry must be documented.

Missing Persons

Adults age 21 and older are required to have signed documentation supporting the stated conditions under which they are being declared missing before entry into the system, unless they are victims of a catastrophe. The documentation should be from a source such as a parent, legal guardian, next of kin, physician or other authority source including a neighbor or a friend. For agencies using Electronic Records Management Systems (ERMS), some forms of signatures that are acceptable are:

- (a) Digitized signatures
- (b) Manual signatures scanned into the ERMS
- (c) The case officer's typed name into the report in the ERMS.

When entering records into the NCIC missing person file, the entry person will:

1. Run a current DVS and CCH/III inquiry to obtain as many descriptors as possible regarding the subject. This check should include a check of whether medical/dental information is available regarding the subject. Any descriptors used must be documented in the officer's report or saved within the case file. Medical/dental information is required 60 days from date of entry or documentation in the case file that attempts were made to gather this information.
 2. Enter a record into NCIC on the subject. This record should include all descriptors. Additional identifiers such as scars, marks and tattoos, aliases, additional dates of birth, etc., should be added to the record through the use of the Enter Missing Person Supplemental Screen.
- (k) Complete the appropriate report forms accurately and completely and initiate a search as applicable under the facts.
 - (l) Collect and/or review:
 1. A photograph and a fingerprint card of the missing person, if available (Minn. Stat. § 299C.54, Subd. 2).

 4. Any other evidence that may assist in the investigation, including personal electronic devices (e.g., cell phones, computers).
 - (m) When circumstances permit and if appropriate, attempt to determine the missing person's location through his/her telecommunications carrier.
 - (n) Contact the appropriate agency if the report relates to a missing person report previously made to another agency and that agency is actively investigating the report. When this is not practicable, the information should be documented in an appropriate report for transmission to the appropriate agency. If the information relates to an
